JOB ACCOUNTABILITIES

	% Time	Essential	Marginal	N/A
Develops, implements, and leads a management strategy for the USC Stevens Center for Innovation to increase, improve, and accelerate the commercialization of university-driven intellectual property (e.g., licenses, patents, royalties, contract research, joint ventures, etc.). Develops and implements policies and procedures for technology transfer and licensing, future patent prosecution, and technology commercialization. Consistently reviews the university's patent portfolio and implements management strategies for underexploited intellectual property. Establishes and tracks metrics to document success in technology transfer and commercialization efforts and ensures compliance with government regulations and with obligations to research sponsors and other partners throughout operations.				
Manages the center's licensing, startup, and entrepreneurial functions and serves as a liaison to the business and research community. Leads efforts to identify, evaluate, and market new technologies and inventions from faculty, staff, and students. Leads and participates in entrepreneurship activities on campus and identifies opportunities to support translational research. Identifies and facilitates opportunities to coordinate and integrate technology transfer activities with the activities of incubators and other new ventures.				
Identifies and engages commercialization and industry partners. Facilitates crafting, negotiating, securing, and executing license agreements (e.g., sponsored research, confidentiality, material transfer, etc.) and manages ongoing active licenses. Administers completed contracts (e.g., management of financial terms, invoicing, monitoring of milestones, etc.).				
Provides intellectual property and technology transfer education and training opportunities for faculty, students, and staff. Advises on, and contributes to, the development of university policies in respect to intellectual property considerations. Develops and implements consultation and advising services for university stakeholders. Benchmarks peer institutions' interpretation of regulations and methods of meeting similar obligations; monitors national trends in research; and provides input representing the university on proposed regulations.				
Develops and manages relationships with industry partners, external public- and private-sector entities (e.g., federal and state agencies, national research centers, and foundations), and other external stakeholders. Attends and represents the university at national meetings concerning technology transfer, commercialization, licensing, and intellectual property and communicates the impact and value of the center's activities to internal and external stakeholders. Stays current with industry trends and best practices in technology transfer and licensing. Promotes an environment that fosters inclusive relationships and creates unbiased opportunities for contributions through ideas, words, and actions that uphold principles of the USC Code of Ethics.
