

Senior Information Security Advisor Job Description

JOB INFORMATION

<i>Job Code:</i>	166033
<i>Job Title:</i>	Senior Information Security Advisor
<i>FLSA Status:</i>	Exempt
<i>Supervisory:</i>	May oversee student, temporary and/or resource workers.; Supervises employees who do not supervise.
<i>Job Family:</i>	IT Security
<i>Job Family Group:</i>	Information Technology
<i>Management Level:</i>	7 Individual Contributor

JOB SUMMARY

Responsible for planning, designing, and executing security solutions, benchmarking technology strategies, leading the selection and implementation of technology solutions, identifying security deficiencies, and recommending corrective action of identified vulnerabilities. Oversees the creation and publication of internal controls, ensures the development and maintenance of adequate compliance resources and training opportunities, and fosters a risk and compliance-focused culture within the division. Works with IT internal support teams as well as external clients within the university to provide the highest standards of support relative to information security governance and risk management practices. Provides guidance on security solutions, prepares benchmarking reports and presentations, monitors security metrics to evaluate efficacy of security programs, and leads security incident response activities.

pros and cons and build vs buy options. Facilitates flexible and scalable solutions. Ensures that the technical design considers security controls, performance, confidentiality, integrity, availability, access and total cost. Oversees working solutions or prototypes and resolves any issues that arise.				
Leads security strategy, architecture and tools in accordance with university standards, policies, procedures and other formal guidance, ensuring security technology standards and best practices are maintained across the university.				
Promotes implementation of new technology, solutions and methods to improve business processes, efficiency, effectiveness and security. Oversees operational, architectural and design documentation including procedures, task lists, and roadmaps.				
Matures information security risk management processes, programs and strategies. Aligns information security activities with regulatory requirements and internal risk management policies. Identifies security gaps and deficiencies by conducting risk assessments and recommends corrective action of identified vulnerabilities and weaknesses. Leads the planning, testing, tracking, remediation, and acceptance level for identified security risks. Oversees the creation and publication of internal controls. Ensures requisite compliance monitoring is in place to identify control weaknesses, compliance breaches and operational loss events. Ensures adequate compliance resources and training, fostering a risk and compliance focused culture and optimizing relations with team members and regulators.				
Leads enterprise due-diligence activities including security monitoring and security metrics to evaluate effectiveness of the enterprise security program and established controls.				
Leads security incident response activities and post-event reviews of security incidents. Ensures the clear and professional documentation of root cause and risk analysis of all findings. Reviews and leads action plans for issue resolution. Leads investigation and reports contribution of security threats and incidents.				
Leads security incident response activities and post-event reviews of security incidents. Ensures the clear and professional documentation of root cause and risk analysis of all findings. Reviews and leads action plans for issue resolution. Leads investigation and reports contribution of security threats and incidents.				
Oversees security testing projects according to a structured process, including writing test plans, test cases and test reports. Leads basic proof-of-concept exploits of vulnerabilities.				
Interfaces with peers and senior leadership and communicates at all levels. Provides guidance to less experienced Information Security team members.				
Recruits, screens, hires, trains and directly supervises all assigned staff. Evaluates employee performance and provides guidance and feedback. Counsels, disciplines and/or terminates employees as required. Oversees onboarding and orientation of new employees to ensure that duties, responsibilities, work requirements and performance standards are clearly understood. Assesses staff development needs. Promotes staff participation in educational opportunities and activities. Schedules, assigns and prioritizes workloads. Sets appropriate deadlines. Monitors employee performance on day-to-day basis. Ensures timely completion of unit's work.				
Maintains awareness and knowledge of current changes within legal, regulatory, and technology environments which may affect operations. Ensures senior management and staff are informed of any changes and updates in a timely manner. Establishes and maintains appropriate network of professional contacts. Maintains membership in appropriate professional organizations and publications. Attends meetings, seminars and conferences and maintains continuity of any required or desirable certifications, if applicable.
