

Lambda Letter

March 2023

About Us

MedLambda is the LGBTQ+ organization and MSPA chapter of Keck School of Medicine. We are happy to provide you with this month's newsletter featuring local events, international awareness campaigns, LGBTQ+ health equity organizations, and opportunities to participate in LGBTQ+ health research.

March Awareness

March is Women's History Month!

Take time this month to celebrate all women, but especially queer, trans, and BIPOC women who so often face disproportionate levels of bias, oppression, and violence.

March 31 is International Transgender Day of Visibility!

With anti-trans legislation on the rise across the U.S. this year ([see the ACLU's bill round-up](#)), MedLambda acknowledges that trans visibility without meaningful action toward trans acceptance will never lead to trans liberation.

This month's letter brought to you by Hannah Chute
